Annual Campus Security Report

Published October 2017, Revised April 2018

Security Reporting for 2014, 2015 & 2016

Chapter 1

How to report criminal actions or other emergencies occurring on campus

Timely warning reports to students and staff

In the event a situation arises, either on or off campus, that, in the judgment of the Campus Director, constitutes an ongoing or continuing threat, a campus-wide “timely warning” will be issued via email.

Some situations may constitute an emergency, and require an immediate College-wide notification (for example, any situation that poses an immediate threat to the community). In such situations, the Campus Director may send a warning to all students and staff using the Call-Em-All phone broadcasting service. Used to notify staff and students immediately of any emergency conditions, this mass notification service allows a voice message to be sent to a group of people in the event of an emergency. Anyone with information warranting a timely warning should report the circumstances to the Campus Director, by phone (801.418.1450) or in person at the campus.

Policy for preparing the annual disclosure of crime statistics

The Annual Security Report is compiled by the compliance department of the Center for Excellence in Higher Education (the parent company of this campus) to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The full text of this report can be located on our web site at www.stevenshenager.edu. This report is prepared in cooperation with the local law enforcement agencies surrounding each campus.

Campus crime, arrest and referral statistics include those reported to designated campus officials and local law enforcement agencies.

Each year, an email notification that provides this report is made to all enrolled students. Faculty and staff receive similar notification via email.

Titles of each person or organization to whom student and employees should report criminal offenses described in the law for purpose of making timely warning reports and the annual statistical disclosure.

To report a crime:

Contact the Campus Director at 801.418.1450 (non-emergencies); or dial 911 (emergencies only). If you are the victim or witness of a crime and do not want to pursue action within the College structure or the criminal justice system, you may still want to consider making a confidential report. With your permission, the Campus Director can file a report on the details of the incident without revealing your identity. The purpose of a confidential report is to comply with your wish to keep the matter confidential, while taking steps to ensure the future safety of yourself and others. With such information, the College can keep an accurate record of the number of incidents involving students, determine where there is a pattern of crime with regard to a particular location, method, or assailant, and alert the campus community to potential danger. Reports filed in this manner are counted and disclosed in the annual crimes statistics for the institution.

Chapter 2

Security of Campus Facilities

Security of and access to campus facilities and security considerations used in the maintenance of the campus facilities

The Campus Director's office maintains the college and grounds with a focus on safety and security. They regularly inspect these facilities and promptly make appropriate repairs. Representatives from the College periodically inspect the entire campus to review lighting and environmental safety concerns. The College does not have residence halls or any kind of dormitory facilities.

The College is an "open campus with restrictions." College facilities are open during the day and evening hours when classes are in session. When

buildings have been secured for the night, for holidays, etc., only employees and authorized students with proper I.D. are admitted.

Report a Hazard - Individuals are encouraged to report hazardous conditions or safety concerns to the Campus Director's office.

Chapter 3

Crime Prevention

The law enforcement authority of campus security personnel and the working relationship of campus security personnel with state and local law enforcement agencies

The College does not maintain a state certified police department. Local law enforcement agencies are contacted as needed. The College works closely with local municipal, county, state, and federal law enforcement agencies.

Policies which encourage accurate and prompt reporting of all crimes to the campus police and the appropriate law enforcement agencies.

Procedures, if any, that encourage pastoral counselors and professional counselors, if and when they deem it appropriate, to inform the persons they are counseling of any procedures to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics

The College does not employ pastoral or professional counselors. All reports will be investigated. The College does not have procedures for voluntary, confidential reporting of crime statistics. Violations of the law will be referred to law enforcement agencies. When a potentially dangerous threat to the College community arises, timely reports or warnings will be issued through the Call-Em-All phone broadcasting service.

Statement that the institution will upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the report on the results of any disciplinary proceeding conducted by such institution against

a student who is the alleged perpetrator of such crime or offense.

The college will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the College against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the College will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

Policy regarding your institution's emergency response and evacuation procedures

Upon confirmation of a significant emergency or dangerous situation involving an imminent threat to the health or safety of the campus community the following communication resources and procedures will be activated:

- The Campus Director will confirm the magnitude and scope of an emergency, at which time activation of the College's mass notification system, the Call-Em-All phone broadcasting service, and/or evacuation procedures will be determined.
- Upon confirming that an event warrants immediate notification of the campus community, the Director will direct the activation of the Call-Em-All phone broadcasting service Without delay, unless mitigating factors warrant a delay, alert, information, and reassurance messages will be streamed to the campus community by the Call-Em-All phone broadcasting service.
- Evacuation and/or shelter-in-place directions will be given.
- Should the incident and/or threat impact the larger community, the police department

will determine whether residents should be alerted.

- Testing the system:
 - On a semiannual basis, the mass notification using personal cell phones will be tested.
 - The test will be unannounced.
 - The test message is as follows: “This is a test of the College’s emergency response alert system. In the event of a real emergency, this alert message will tell you what the emergency is and what to do.”
 - A record will be made of each test, including a description, the date and time, and whether the test was announced or unannounced.
- The College will publicize its emergency notification procedures in conjunction with the testing of the alert system.
- Under the direction of the Campus Director’s office, evacuation drills are conducted on an annual basis. A record is made of each drill including a description, the location, the date and time, and whether the test was announced or unannounced.

TIMELY WARNING NOTICE POLICY

Reporting and notification:

Anyone with information warranting a timely warning should immediately report to the timely warning notice committee. Shortly after the incident is reported, a decision will be made by the committee to issue a notification on a case-by-case basis. The timing of the notification shall be based on the seriousness of the crime in relation to possible risk of compromising law enforcement

efforts and the continuing threat to the students, employees, and guests of the College.

Warnings:

Information included in the warnings may include, but are not limited to, the following information:

- Type of crime
- Location
- Date and time occurred
- Any suspect information

Procedure:

The following methods may be used to disseminate information to the campus community about crimes that represent a continuing threat to students and employees:

- Email—issued campus-wide
- Flyers—posted in visible areas, such as entry doorways.
- Text messaging—notifications distributed to students and staff who have voluntarily signed up for the service.

Chapter 6

Sex Offenses

Educational programs and campaigns to promote the awareness of dating violence, domestic violence, stalking, and sexual assault crimes including rape, acquaintance rape and other sex offenses.

Sex offense prevention sessions are presented to all new students in their first required course. Additional information is included in this Campus Security Report distributed to all students annually.

Procedures students should follow if a sex offense occurs including: Procedure concerning who should be contacted, the importance of preserving evidence for proof of a criminal offense and to whom the alleged offense should be reported.

If you are a victim of a sexual assault at this campus, your first priority should be to get to a place of safety. You should then obtain necessary medical treatment. Time is a critical factor for evidence collection and preservation. An assault should be reported directly to a College manager. Filing a report will:

- ensure that a victim of sexual assault receives the necessary medical treatment and tests, at no expense to the victim;
- provide the opportunity for collection of evidence helpful in prosecution, which cannot be obtained later (ideally a victim of sexual assault should not wash, douche, use the toilet, or change clothing prior to a medical/legal exam);
- assure the victim has access to free confidential counseling from counselors specifically trained in the area of sexual assault crisis intervention.

Information on a student's option to notify appropriate law enforcement authorities including: On-campus and local police and a statement that institutional personnel will assist the student in notifying these authorities, if the student requests the assistance of these personnel

The College strongly advocates that a victim of sexual assault report the incident in a timely manner to the local police. The campus personnel will assist the victim in making contact with the local police.

Time is a critical factor for evidence collection and preservation.

Notification to students of existing on- and off-campus counseling, mental health or other student services for victims of sex offenses.

The College will offer referrals to off-campus counseling, mental health or other services available for victims of sex offenses.

Notification to student that the institution will change a victim's academic and living situations after an alleged sex offense, and the options for those changes if those changes are requested by the victim and are reasonably available.

The College will make every attempt to adjust the victim's academic schedule after an alleged sex offense if requested.

Procedures for campus disciplinary action in cases of an alleged sex offense

College Personnel: A victim of a sexual offense allegedly perpetrated by an employee may choose to report the alleged perpetrator to the Campus Director for the assessment of appropriate sanctions which shall be determined and administered according to established employee grievance procedures. However, in the case of a sexual offense, the Campus Director, in addition to the process established in its grievance procedures, must do the following:

- Provide the accuser with the information identified in this policy as to whom should be contacted for assistance, and to whom the alleged offense should be reported - emphasizing the importance of preserving evidence as may be necessary for the proof of a

criminal offense.

- Provide the accuser and the accused with the same opportunities to have others present during a campus disciplinary proceeding.
- Provide the accuser and the accused with information concerning the outcome of any campus disciplinary proceeding.
- Inform the accuser of options to notify proper law enforcement authorities, including local police, and the option to be assisted by campus authorities in notifying these authorities if the accuser so chooses.
- Provide notification to accuser of the information identified in this policy of existing mental health counseling or other church or community services in the community for victims of sexual offenses.

Students: A victim of a sexual offense by a student may choose to report the alleged perpetrator to the Campus Director's office.

The Accuser will be:

- treated with consideration and understanding;
- encouraged to report the incident to appropriate local law enforcement authorities, and to seek appropriate legal redress;
- informed of the option to be assisted by campus authorities in notifying law enforcement authorities;
- given a list of off-campus sex offense victim services (medical, legal, ecclesiastical, educational and mental health), and encouraged to utilize these resources;
- informed of reasonable options and assistance in changing academic arrangements;

- informed that he/she must identify the accused and provide sufficient details of the event in writing in order for the College to investigate and, if justified, sanction the accused;
- informed that a person of his/her choice may accompany them, for the purpose of providing support, to any resulting campus disciplinary proceeding;
- informed that he/she will be promptly informed as to the outcome of the disciplinary proceeding;
- informed that the College will act responsibly to respect his/her privacy ;
- informed that the College will initiate reasonable measures to assist in his/her safety.

The Accused will be:

- informed of the nature of the allegations and to participate in an investigative interview;
- treated with consideration;
- allowed to respond in writing as to the allegation;
- cautioned to have no contact with the accuser during this process;
- informed that he/she will be promptly informed as to the outcome of the disciplinary proceeding.

Sanctions the institution may impose following a final determination of an institutional disciplinary proceeding regarding rape, acquaintance rape or other forcible or non-forcible sex offenses.

Sanctions: A determination will be made as to an appropriate sanction based upon all information gathered during the investigation. The range of

appropriate sanctions may vary according to the facts:

- If the administrative personnel determines that it is more probable than not that the sex offense as alleged by the accuser did take place, appropriate college sanctions will be imposed.
- If the accuser or accused elect to appeal the decision and or sanction, the matter will then be heard by the Campus Director.
- If it is not feasible for the College to come to a decision with respect to the allegation and the accuser pursues legal redress through the criminal or civil courts, the determination of the College may be deferred pending the outcome of the legal process. Depending upon the court action, the college may impose an appropriate sanction retroactive to the date of the sexual offense.
- The College will act responsibly to protect the welfare and privacy of the accused in respect to the processes at the college.

Campus Coordination: Allegations of a sexual offense should be promptly reported to the Campus Director's office. The Campus Director's office in turn will make referrals to appropriate campus departments. All departments will cooperate in the exchange of relevant information to facilitate the determination of suitable sanctions and to assist the victim.

Chapter 7

Obtaining registered sex offender information

Statement advising the campus community where law enforcement agency information provided by a state concerning registered sex offenders may be obtained, such as the law enforcement office of the institution, a local law enforcement agency with jurisdiction for the campus or a computer network address.

In accordance with the federal Campus Sex Crimes Prevention Act (CSCPA), notice must be given of registered sex offenders to institutions of higher education if the offender is employed, carries on a vocation, or is a student at the institution.

Information regarding registered sex offenders residing within a specific geographic location can be accessed via:

The Utah Department of Corrections' website:

EXPLANATION OF CONSENT

An affirmative consent requires that consent was given by both parties to sexual activity. Affirmative consent means affirmative, conscious, and

voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent. It shall not be a valid excuse to alleged lack of affirmative consent that the accused believed that the complainant consented to the sexual activity under any of the following circumstances:

- Affirmative consent arose from the intoxication or recklessness of the accused.
- The complainant was asleep or unconscious.
- The complainant was incapacitated due to the influence of drugs, alcohol, or medication, so that the complainant could not understand the fact, nature, or extent of the sexual activity.
- The complainant was unable to communicate due to a mental or physical condition

Health Risks of Alcohol Consumption

The consumption of alcohol may cause a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts,

including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system,

much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms--including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at a greater risk than other youngsters of becoming alcoholics.

Safety Tips

Personal Safety Recommendations:

1. Campus staff is available to assist you in protecting yourself by providing safety and security information, such as posters and brochures. However, only you can protect yourself by being aware of your surroundings and taking appropriate steps in preventing crime from happening.
2. Do not prop open locked interior building doors at the campus. These doors are locked for your protection and the protection of others.

Protect Your Property

1. Personal property (purses, briefcases, calculators, computers, etc.) should never be left unattended. Take such items with you if you are leaving the office, classroom, or any other unsecured location.
2. Do not leave valuables in plain view. Always take your valuables with you when you leave the campus premises.

Protect Your Automobile

1. Always lock your car doors and never leave your keys in the vehicle.
2. Try to park your car in a well-lit area.
3. Avoid leaving property where it is visible.
4. If you arrive at or leave the campus late at night, you should use extra caution when walking to your vehicle. It is preferable to walk to the parking lot with others if at all possible.

Help the College Protect You

1. Watch for suspicious persons in and around College buildings and in parking lots. Do not pursue them. Call the campus management immediately. Problems related to people in the building after hours should be reported to the campus management.
2. If you see any suspicious activity or people on or near campus, call the campus management or the local police department (911). Do not assume that what you observe is an innocent activity or that it has already been reported.
3. Do not assume the person is a visitor or College staff member who you have not seen before.
4. Suspicious people may be loitering about at unusual hours and locations, running, especially if something of value is being carried. If exhibiting unusual mental or physical symptoms, persons could be under the influence of drugs or otherwise needing medical or psychiatric assistance. Carrying property that may be suspicious depending on the circumstances, going room to room trying door handles. Violations of this rule should be reported to the campus management or the local police immediately.
5. Report all thefts and property loss immediately to the campus management or the local police.

Policies and Procedures for Safe Access to Buildings

1. Keys are issued to authorized faculty, staff only.
2. Building evacuation is mandatory for all fire alarms.

Sex Offense Prevention Assistance

The College's policies and procedures require all college members to respect the personal rights of others and to obey the law. Any violation of another individual's right to be free from sexual assault constitutes a serious violation of the policy which may result in termination of employment, suspension, or dismissal from the College. All of the following sex offenses are also serious crimes and punishable by imprisonment:

Sex Offenses: Offenses against another person forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental or physical incapacity. These offenses include:

- **Sexual Assault:** Any sexual act directed against another person, without consent of the victim, including instances where the victim is incapable of giving consent.
- **Rape:** The penetration, no matter how slight, of the vagina or anus, with any body part or object, or oral penetration by a sex organ of another person, without consent of the victim. This offense includes the rape of both males and females.
- **Fondling:** The touching of the private body parts of another person for the purpose of sexual gratification, without consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental incapacity.

Frequently, victims and their attackers know each other. Be aware that acquaintance rape is a serious crime. Rape of any kind is a crime of violence and is never the victim's fault. The lack of verbal or physical resistance because of force, or threat of force, or intimidation, does not represent consent.

- **Incest:** Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
- **Statutory Rape:** Sexual intercourse with a person who is under the statutory age of consent.

Other Non-Contact Sex-Related Offenses: the College strives to prevent other non-contact sex-related offenses including exhibitionism, voyeurism, stalking and obscene or harassing phone calls, text messages, e-mail, etc. The College enforces all applicable state and federal laws concerning sex offenses.

Sexual Harassment In The Workplace Or In Academics: For information concerning the reporting of sexual harassment in the workplace or in academics, see the Employee Manual or Student Catalog.

Sex Offense Education: Student Services provide information and programs to educate individuals about ways and means to avoid victimization and to inform victims of their rights and responsibilities. These programs also educate potential perpetrators of the consequences of their actions.

If You Are a Victim of Sexual Assault: Incidents of on-campus assault should be reported to the Campus Director. Off-campus incidents should also be reported to appropriate local law enforcement officials. If the victim desires, campus

personnel will assist them in notifying the appropriate law enforcement authorities. EXPLANATION OF CONSENT

An affirmative consent requires that consent was given by both parties to sexual activity. Affirmative consent means affirmative, conscious, and voluntary agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that he or she has the affirmative consent of the other or others to engage in the sexual activity. Lack of protest or resistance does not mean consent, nor does silence mean consent. Affirmative consent must be ongoing throughout a sexual activity and can be revoked at any time. The existence of a dating relationship between the persons involved, or the fact of past sexual relations between them, should never by itself be assumed to be an indicator of consent. It shall not be a valid excuse to alleged lack of affirmative consent that the accused believed that the complainant consented to the sexual activity under any of the following circumstances:

- Affirmative consent arose from the intoxication or recklessness of the accused.
- The complainant was asleep or unconscious.
- The complainant was incapacitated due to the influence of drugs, alcohol, or medication, so that the complainant could not understand the fact, nature, or extent of the sexual activity.

-
- The complainant was unable to communicate due to a mental or physical condition

Other Crimes & Situations

Active Shooter: To survive an active shooter incident one must develop a **survival mindset** and a **course of action**. A survival mindset is a protective shield comprised of three components:

- **Awareness**
- **Preparation**
- **Rehearsal**

A course of action may involve any or all of the following:

- **Figure out** the situation.
- **Get out** to a safer area if you can.
- **Call out** to the police.
- **Hide out** if you are unable to get out.
- **Keep out** the shooter by blocking doorways, etc.
- **Spread out** (do not huddle together) and quietly develop a plan of action.
- **Take out** the shooter. Assume the shooter's intentions are lethal and be prepared to do whatever it takes (survival mindset) to neutralize the threat.

Assault: To avoid circumstances that may make you vulnerable to assault:

- Never jog alone at night.
- Avoid dense shrubbery where an assailant could hide.
- Know the locations of emergency telephones.
- Stick to well-lighted paths and walkways at night.
- Carry a cell phone and whistle to summon help.
- Let friends or family know where you are going and when you will return.

Such offenses may result in College sanctions including, in appropriate cases, termination from College employment, immediate suspension or dismissal from the college as well as prosecution pursuant to state and federal law. The College believes that an educational environment which is consistent with the principles of respecting individual dignity will assist in discouraging the advent of sexual offenses on campus and within the College community.

- In a public setting, never leave personal belongings unattended even for a minute.
- Do not keep large amounts of money on your person. .

Risks Associated with Substance Abuse

Substance abuse may result in a wide spectrum of extremely serious health and behavioral problems. Substance abuse results in both short- and long-term effects upon the body and mind. There are specific health risks related to impairment and addiction. Alcohol and drugs are toxic to the body's systems. In addition to the problem of toxicity, contaminate poisonings often occur with illegal drug use. HIV infection associated with intravenous use is a prevalent hazard.

Acute health problems may include heart attack, stroke, and sudden death, which, in the case of some drugs, such as cocaine, can occur after first-time use. Long-lasting health effects of drugs and alcohol may include disruption of normal heart rhythm, high blood pressure, leaks of blood vessels in the brain, destruction of brain cells, permanent memory loss, infertility, impotency, immune system impairment, kidney failure, cirrhosis of the liver, and pulmonary damage. Drug use during pregnancy may result in fetal damage and birth defects causing hyperactivity, neurological abnormalities, and developmental difficulties.

Emergency Response Plan

The College recognizes that having a comprehensive safety and security plan in place allows students, faculty, and staff to respond more quickly and effectively to incidents that may occur. This plan reflects the College's commitment to building upon our vision, mission, and beliefs for fostering student achievement and a supportive learning environment. With this in mind, we have written the following plan:

Fire Plan or Plan for Emergencies Requiring an Evacuation of the Building

- Drills are conducted at least once per year and involve all occupants—everyone should leave the building when the fire alarm sounds.
- Emphasis is placed on a safe, orderly evacuation rather than speed.
- Occupants should close (BUT NOT LOCK) doors as they leave their classroom/office and faculty should direct students to the appropriate exit.
- All building occupants should congregate in the parking lot at least 200 feet from the building.
- Floor proctors should check to make sure that everyone has evacuated the building and conduct a “head count” at the congregation area to assure that everyone has left the building.
- Re-entry of the building is contingent upon permission by a representative of the school administration or the Fire Department.
- Involve and train all staff members about the Fire Plan or Plan for Emergencies Requiring an Evacuation of the Building.

Bomb Threats

- The person receiving the bomb threat call should engage the caller in a conversation to get as much information as possible:
 - Ask what time the bomb is set to go off.
 - Ask questions regarding the specific location, building, room, closet, locker, hallway, etc.
 - Ask about the appearance of the bomb package.
 - Listen for background noise, e.g., jukebox, radio, other people, traffic sounds, etc.
 - Note whether the caller was calm or hysterical.
 - Note whether the caller's voice was young or old.
 - Notify the director or the administrator in charge.
- The director or the administrator in charge will call the police and declare an emergency and may initiate the Evacuation of the Building Procedure.
- School personnel are to remain outside of the building while police conduct the bomb search.
- Any student or employee who believes a box or other type of container to be suspicious should not touch the item and should immediately report it to the Campus Director or the administrator in charge.
- The area where the suspect device is located will be cleared by at least 200 feet.
- Employees are to keep away from the suspect device and allow the police to deal with it.
- Involve and train all staff members about the Bomb Threat Plan.

Tornado Safety

- Evacuate classrooms to an adjacent hallway, if possible. If not possible, move students away from doors and windows and into the auditorium.
- Initiate the duck, cover, and hold procedure after evacuating the classroom.
- Students will be trained in the duck, cover and hold procedure during orientation as follows:
 - If indoors:
 - DUCK – drop to the floor.
 - COVER – in a bent, crouched-over position, bury the face in the crook of the elbow, and place the other hand over the back of the neck.
 - HOLD – stay in the cover position
 - If outdoors:
 - Get away from buildings. Stay clear of walls, power poles, trees, loose wires, and metal fences.
 - Lie flat on the ground and bury the face in the crook of the elbow while placing the other hand over the back of the neck.
 - Practice the “duck, cover, and hold” drill under tables and desks no less than once per quarter.
 - Involve and train all staff members about the Tornado Safety Plan.

Winter Storm

- The administration should monitor winter weather on a continual basis. In the event of threatening weather, the administration should monitor the internet, and/or commercial radio or

television for local weather updates and predictions.

- Students will learn during orientation under what conditions the school would close for inclement weather and where they can become informed of a closure.

Flooding

- **School Building:** In the event of the flooding of a school building, the Evacuation Procedure will be followed and an alternative site for conducting the school operation will be established as soon as practicable by the administration.
- **Highways and Roads:** In the event of flooding of highways and roads in the area of the school, the administration will determine whether it is safe for school to be open. The administration will inform students and staff through the protocol used for a winter storm.

Earthquakes

- Practice “duck, cover, and hold” earthquake drills under tables and desks no less than once a quarter.
- Identify and assign individual responsibilities for staff following an earthquake (including accounting for and evacuation of students, injury control, and damage assessment)
- Involve and train all staff members about the earthquake safety plan, including location and procedures for turning off utilities and gas.

Protection of Students and Staff from Acts of Others

Assaults: The person observing an assault should follow the following procedures:

- Report the incident to the director or administrator in charge in the most

expeditious manner (messenger, cell phone, etc.)

- Defuse the situation and seek to protect others, but avoid risk of physical injury to anyone.
- Deal with immediate medical emergencies by offering first aid or summoning police as appropriate.
- Do not leave assailants or victims by themselves.
- Determine if it is appropriate to maintain custody of participants.
- Take the names of all parties, including bystanders or witnesses.
- Report all assaults to the police.
- Involve and train all staff members about the protection of students and staff from acts of others.

Trespassers – A trespasser is any person found on school premises who will not register as a visitor. All visitors should register at the reception desk in the lobby of the building (listing their name and the time they entered the building.)

- Greet the trespasser in a polite and non-threatening manner.
- Identify yourself as a school official.
- Inquire as to the purpose of his/her presence. If the person has a legitimate reason for being on campus, have them report to and register at the reception desk in the lobby.
- Inform the trespasser of the visiting policy.
- If the trespasser gives no indication of voluntarily reporting to the office, notify law enforcement by calling 911.

- Observe the person's size, weight, clothing, age, and location to relay to the emergency operator.
- **DO NOT GET INTO AN ARGUMENT OR ATTEMPT TO CHALLENGE THE TRESPASSER.**
- Involve and train all staff members about the appropriate procedure for protecting students and staff from the possible threat of a trespasser.

Medical Emergencies

- If a medical emergency occurs, send a messenger to the director's office or to the administrator in charge.
- Do not leave the injured or sick person until the administrator in charge arrives.
- The administrator in charge will determine if medical emergency personnel need to be summoned.
- No staff member is to distribute any medication.
- Involve and train all staff members about the appropriate procedure to follow in the event of a medical emergency.

Safety and Emergency Equipment and Supplies

- **Fire Extinguishers:** All emergency equipment is to be kept in functioning order and checked on an annual basis.
- **First Aid Supplies:** The Campus Director's office will order and maintain an up-to-date inventory of the first aid supplies and kits. Notice of the location of such first aid kits will be posted in each classroom and office.
